JOIN OUR TEAM

Gongos, Inc. is built on passion. We are seekers, scientists, and curators that seize each day as we inspire great consumer-minded decision making within Global 1000 organizations.

While our individual talents shine through, it's our collective spirit that drives us. Leveraging multidisciplinary skills, we've built a powerful trifecta of primary insights, data analytics, and insight curation to inspire our clients to push the boundaries of what's next.

At Gongos, you're not just another number—you're a human. We look for people who are enthusiastic yet disciplined, collaborative yet autonomous, and driven yet thoughtful.

If you have a healthy appetite for asking questions in pursuit of the unknown, find value in nurturing new and existing relationships, and fuel your imagination by jumping into uncertainty and ambiguity—you're that much closer to becoming unmistakably Gongos.

RECRUITING FOR: Research Interns, Research Coordinators, Analytics Interns, Data Analysts, Programmers and Graphic Designers
