

Job Description

The First Miami Student Federal Credit Union (FMSCU) is offering an in-semester internship to students in Communication Design and Experience Design. In the role, you will be doing the job of a graphic designer and will be in charge of designing:

- Social posts**
- Print/Digital promotional materials**
- All other branding needs for FMSCU initiatives**

Who We Are

Located in the Armstrong Student Center across from Pully Diner, First Miami Student Credit Union became a reality in 1988. The origin stemmed from the need for a financial institution on campus to serve the students.

First Miami provides the products and services one can expect from any other financial institution. The credit union's current asset base of ~\$600,000 fluctuates depending on the season and demand of its primary users, students.

Interns from the credit union develop skills that allow them to compete for positions in many different markets. Our alumni work in companies such as Google, Microsoft, Goldman Sachs, Amazon, Deloitte, etc.
